OUR SPEAKERS

Wayne McPhee and Benjamin Wharton are newly affiliated members. They hail from Australian Lodge of Fidelity No. 101 where they have been researching Early Irish Freemasonry in NSW and the history of that Lodge for its upcoming 175th Anniversary.

Both have a background in architecture and Historic Conservation in Sydney and have deep experience in research and the uncovering of Masonic material.

Their paper tells the story of the early development and trials and tribulations of some of our earliest masons and lodges through the narrative of the birth of Lodge Fidelity No.267 in 1843.
